

Existing Solutions Analysis

1. Introduction

This document analyses existing English learning applications to identify strengths, weaknesses, and gaps in the market.

2. Duolingo

Strengths:

- Gamified learning approach
- Large user base
- Accessible for beginners

Weaknesses:

- Limited focus on academic English
- Minimal explanation of errors

3. Grammarly

Strengths:

- Strong grammar and writing feedback
- Suitable for academic and professional writing

Weaknesses:

- Limited speaking and listening practice
- Focused more on correction than learning

4. BBC Learning English

Strengths:

- High-quality educational content
- Trusted source

Weaknesses:

- Lacks personalisation
- No interactive AI feedback

5. Gap Analysis

Existing solutions often focus on isolated skills or provide limited personalisation. Few platforms combine writing, grammar, and conversational practice with adaptive AI feedback.

6. Conclusion

The proposed AI-driven English learning app aims to address gaps in existing solutions by offering personalised, interactive, and comprehensive language support.
