

Evaluation Methods Report

1. Introduction

This report outlines methods for evaluating the effectiveness of the Adaptive English Learning Application.

2. User Evaluation

Learners will complete tasks while usability and feedback quality are assessed through questionnaires.

3. Learning Outcome Evaluation

Pre- and post-use assessments will measure improvement in grammar, vocabulary, and accuracy.

4. Technical Evaluation

System performance, reliability, and AI response accuracy will be tested.

5. Educator Feedback

Teachers will evaluate the usefulness of analytics and reporting tools.

6. Conclusion

Evaluation ensures the system meets its educational and technical objectives.
